

LOCALS.

Mrs. J. R. Hinton, wife of Prof. Hinton, of the Williams school, arrived home Monday, last, from an extended visit with home folks at Prescott, Kansas.

An ice famine in Flagstaff for the past few days has caused the local iceman to draw on the Ice Caves nine miles south of town. Nature has been very kind to these people to furnish them natural ice in the middle of August.—Flagstaff Gem.

Ed Lamb stopped off the first of the week for a visit with his parents, Mr. and Mrs. E. Lamb, of this city. Ed is now located at Winslow and has a passenger run out of that place. Accompanied by his wife, who has been here visiting for some time past, he returned home on Wednesday's No. 2.

Talk about the rainless desert; if this thing keeps on much longer we will be raising crops here and chickens will have to learn to swim. Last week we had half an inch of rain, accompanied by thunder and lightning. It caused the water to run freely everywhere, but did no damage.—Randsburg Miner.

Mr. and Mrs. E. A. Haggott were passengers east the first of the week. Mr. Haggott goes on mining business, but incidentally will combine considerable pleasure. He, with Mrs. H., will see the sights of the Pan-American exposition and from there will visit Philadelphia and other cities. A couple or more of pleasant weeks will be spent at Newport, the guests of ex-Senator Addicks, of Maryland, and the principal owner of the Blue Bell mine, of which Mr. Haggott is the superintendent. They will be away for about six weeks.—Prescott Prospect.

The News regrets deeply the accident to the large reservoir belonging to Mr. J. Kaufman, near Seligman, last Saturday night. The dam was an immense affair, holding at the time of the accident, a body of water thirty-five feet deep and 120 feet wide at the base and three-quarters of a mile long. Mr. Kaufman is making arrangements to begin the work of rebuilding about the 1st of September, when a large force of men and teams will be put to work. The loss, in water alone, for stock purposes, is estimated at not less than \$5,000.

N. A. Comstock, representing the Herring-Hall-Marvin Co., manufacturers of safes, has been in the city for some time in the interest of his firm, and has been doing quite

an extensive business, having secured orders for new vaults from the Arizona Central Bank and M. Salzman, while Polson Bros. and the Williams Drug Co., have placed orders for latest improved safes. Mr. Comstock is also an architect of ability and has furnished plans for the new Bank, Walsh and Laub buildings, work on which has begun.

B. F. Sweetwood will leave for the east next week to purchase a new and complete outfit for the Keystone-Monogram, consisting of bar fixtures, pool and billiard tables, etc. The new location will be on the corner of Second street and Railroad avenue, on the site formerly occupied by Cap. P. Smith. These two worthy gentlemen have consolidated their interests and hereafter will conduct the same under the firm name of Smith & Sweetwood. Their new room will be fitted up in a most elaborate manner. The floor will be covered with linoleum while rubber matts will be placed around the tables. When completed, the Keystone-Monogram will be among the finest appointed bar-rooms in the southwest. It is expected that their new building will be ready by October 1st.

NOTICE.

All persons holding warrants on the county, signed by A. W. Kinsey, Road Overseer, can file same with the clerk of the Board of Supervisors, subject to the approval of the Board.

H. C. HIBBEN,
Clerk of Board of Supervisors.

John McCarty Found.

The mystery regarding the disappearance of John McCarty, popularly known throughout the territory as the "lion hunter, has at last been cleared up.

On Wednesday McCarty's partner, J. K. Day, arrived in Flagstaff with the news of the discovery and immediately a coroner's jury was called to visit the scene, which is about seventy-five miles south of Flagstaff.

Mr. Day, together with many others, has been hunting for some time for a clue as to the whereabouts of the missing man. At last he was rewarded by finding the remains of his friend near the head of Miller's canyon, in the southeastern part of the county. From all appearances McCarty had had an encounter with a bear and was terribly mutilated—his head being severed, one leg and two ribs broken and his clothes badly torn.

McCarty always made a practice of carrying a shotgun on all his hunting expeditions and this was found by Day near the scene of the encounter, but the barrel had burst. It was possibly due to this fact that McCarthy lost his life, as he was a fearless hunter and an unerring shot.

As stated above, the coroner's jury left Flagstaff on Wednesday, and as the trip is a long and hard one they will possibly not be able to return before next Monday, when the particulars in the case can be obtained.

McCarty disappeared from his camp on June 6 and a vigorous search has been in progress ever since.
